THE SECRET TO BEAUTIFUL PLANTS

RETAILER CATALOG

WHAT'S THE SECRET TO BEAUTIFUL PLANTS? LECHUZA!

You've probably already seen these beautifully-shaped planters that provide the perfect home to grow and thrive for everything from small indoor plants to large palms. It's LECHUZA! For over 20 years, our passion has been focused on one thing: award-winning designer planters for every furnishing style that not only look fabulous, but also promote magnificent growth. Our original LECHUZA self watering system follows the example set by nature and is designed to supply plants with water according to their own needs. In combination with our LECHUZA plant substrates, plants always get the nutrients they need for optimal growth. Luscious green without all the work – discover the LECHUZA principle!

THE LECHUZA PRINCIPLE

PROFESSIONAL WATERING FOR EVERY TYPE OF PLANT

Plant care can be a challenge because every plant has unique requirements in terms of its location and watering needs. LECHUZA makes watering easy!

The classic self watering system is used for larger LECHUZA planters. It includes the planter, a planter liner or separator, and the components of the irrigation set: the supply shaft, water level indicator, and LECHUZA-PON as a drainage layer. A drain plug prevents waterlogging when used outdoors.

WATER ONCE, THEN SIT BACK AND RELAX!

LECHUZA has developed an intelligent self watering system inspired by nature that creates the optimal conditions for plant growth and keeps care to a minimum. Get magnificent blossoms and lush foliage even without a green thumb thanks to LECHUZA's unique principle.

WICK SYSTEM

This self watering system uses an absorbent wick to transport water and nutrients to the root of the plant. The wick system is exclusively planted with LECHUZA-PON to ensure optimal capillary action and good root aeration. Simply fill the water reservoir and the plant receives all the moisture it needs. The water level indicator reliably shows when it is time to refill the reservoir. Table planters with a wick watering system are available as an All-in-One Set with enough LECHUZA-PON for a complete planting.

STICK SYSTEM

Perfect watering for herbs and co. without any planting: Simply insert the watering stick directly into the grow pot and then place it into the planter. Water is transported from the reservoir to the soil of the pot and directly reaches the roots of the plant.

CHOOSE LECHUZA

WHAT MAKES OUR PRODUCTS SO SPECIAL

We make our planters according to the highest standards in terms of quality, materials, and finishing so that you can enjoy our products for many years to come. Thanks to this combination, our assortment has some very unique features:

WEATHERPROOF

Hot sun, persistent rains, snowfall: our planters can take it all. This means you can leave them outside even in harsh weather conditions and they won't fade or become porous.

UV RESISTANT

Many windows do not block UV rays and objects in front of them can fade over time in the sunlight. Our planters are UV resistant, so you can place them on windowsills and they won't lose their color.

FROSTPROOF

All of our planters are made of durable plastic and are suitable for use even in sub-freezing temperatures. You can leave them outdoors the entire winter with no worries.

PERFECTLY BALANCED PLANT SUBSTRATES

Every plant has unique soil needs. We love plants, so we offer an entire range of different substrates that help every type of plant thrive.

SHATTERPROOF

Our planters are so rugged that they won't shatter, crack, or break if they ever tip over.

EASY TO CLEAN

LECHUZA planters are very easy to clean: All you need is a soft cloth and some water to remove fingerprints, dirt, dust, and other debris from the robust painted surface.

WATERTIGHT

Your floors, tables, and surfaces stay dry: Our planters are reliably watertight. Even our outdoors planters come with a drain plug that can be inserted for indoor use.

PRACTICAL ACCESSORIES

We want our planters to be as simple and easy to use as possible and fit even better into your customers' living environment. With this in mind, we offer complementary accessories designed specifically for our various planter shapes and sizes. This adds real value to your LECHUZA range!

LECHUZA QUALITY ONLY THE HIGHEST QUALITY PLASTICS

Premium materials, low-solvent paints, and years of experience in plastics molding give LECHUZA products their one-of-a-kind quality. Thanks to our technical expertise, our planters and furniture are exceptionally robust and made to last for many years.

We have been committed to quality-controlled production in Germany ever since our operations began in 2000. We are still headquartered in the Middle Franconian town of Zirndorf and manufacture our planters and furniture in nearby Diethenhofen to ensure consistent product quality at the highest level.

CARING FOR THE ENVIRONMENT HAPPINESS IS A GREEN THUMB!

LECHUZA is committed to using resources in the most efficient and environmentally friendly way. This is why we make products that last. We recycle LECHUZA planters and production scrap and use this material to manufacture new products.

We also care about sustainability; a large part of our production water comes from cisterns and we are constantly looking for ways to reduce our energy consumption. And in an effort to create a sustainable value chain, we include our suppliers and distributors in our environmental concept.

<p>REINTRODUCTION OF</p> <p>90%</p> <p>OF RESIDUAL PLASTIC* INTO PRODUCTION</p> <p><small>* Residual plastic from the production of our own products.</small></p>	<p>WE PROCESS</p> <p>APPROX. 40%</p> <p>RECYCLED PLASTICS EACH YEAR</p>	<p>IN PRODUCTION WE USE</p> <p>UP TO 80%</p> <p>OF THE WATER FROM CISTERNS</p>	<p>WE USE</p> <p>100%</p> <p>GREEN ELECTRICITY IN PRODUCTION</p>

OUR PLANTERS ARE 100% RECYCLABLE

THE LECHUZA LOOK

AWARD-WINNING DESIGN MADE IN GERMANY

Harmonious shapes, elegant finishes, exciting surfaces – these are the characteristics of the unmistakable LECHUZA look. Our innovative ideas blend useful features with aesthetic design, reinforcing our role as a pioneer in the market.

“Form follows function”

At LECHUZA, design and function are equally important – without any compromises. Following this creative approach we have succeeded year after year in inspiring the industry and winning over critics.

We have already received over 25 awards for the unique design of our planters.
